PROFESSIONAL SUMMARY

Computer Science Engineering student with 1 year of experience as a Full Stack Developer at MPulse Digi AI, skilled in Python, JavaScript, Node.js, Express.js, FastAPI, REST APIs, MySQL, MongoDB, Git, Docker, and API integration. Experienced in developing backend services, database-driven applications, and AI-powered solutions.

EDUCATION

B.Tech (Hons) in Computer Science Engineering

2023 – 2027

Chhattisgarh Swami Vivekanand Technical University (CSVТУ)

Bhilai, Chhattisgarh

CGPA: 8.12/10

Higher Secondary Education (MPC)

2020 – 2022

Shastra Junior College

Andhra Pradesh, India

Percentage: 93%

SKILLS

Programming Languages	Python, JavaScript, C, C++, SQL, R
Frontend	HTML, CSS, JavaScript
Backend	Node.js, Express.js, FastAPI, Flask, REST APIs
Databases	MySQL, MongoDB, SQLite
APIs & Tools	API Integration, Postman, Git/GitHub, Docker, VS Code
AI & Automation	Generative AI, LLMs, AI Agents, n8n
Core Concepts	DSA, OOP, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

Full Stack Developer — MPulse Digi AI

Feb 2024 – Mar 2025

- Developed full-stack applications using JavaScript, Python, Node.js, and Express.js.
- Designed REST APIs and integrated MySQL and MongoDB for application data management.
- Built backend services using FastAPI/Flask and integrated external APIs and AI-powered services.
- Used Git/GitHub, Docker, and Postman for development, version control, API testing, and deployment.

Research Intern — Indian Institute of Technology Tirupati (IIT Tirupati)

Jan 2026 – Jun 2026

- Developed machine learning models for crop recommendation and crop yield prediction.
- Designed backend services for data processing, model deployment, and prediction generation.

AI and Data Analytics Intern — Edunet Foundation

May 2025 – Jun 2025

- Worked with Python, Pandas, NumPy, data visualization, and machine learning fundamentals.
- Applied data analysis and machine learning concepts through hands-on projects.

SELECTED PROJECTS

- **AI Assistant with MCP Server:** Built an AI assistant using LLMs, FastAPI, and MCP to connect with external tools, APIs, databases, and documents for automated task execution. ([Project Link](#))
- **Intelligent Agricultural Decision-Support System:** Developed a machine learning system for crop recommendation and yield prediction, integrating preprocessing, model training, prediction services, and backend APIs. ([Project Link](#))

EXTRA-CURRICULAR ACTIVITIES

- Regularly solve Data Structures and Algorithms problems on LeetCode to strengthen problem-solving and coding skills.
- Actively explore Full Stack Development, Generative AI, LLMs, AI Agents, and automation technologies.
