OBJECTIVE

Highly motivated Computer Science student with strong programming, Data Structures, and Algorithms skills, eager to contribute to innovative projects and learn from industry leaders through an internship opportunity.

EDUCATION

B.Tech in Computer Science, Chhattisgarh Swami Vivekanand Technical University, Bhilai. **2023-2026**
CGPA: 9.02/10 **Bhilai, Chhattisgarh**

Higher Secondary School(MPC) ,Shastra Junior College **2020 - 2022**
Percentage: 93% **AP, India**

SKILLS

Programming Languages	C, C++, Python, HTML, CSS, JavaScript, R, SQL
Frameworks/Libraries	Bootstrap, Django, NumPy, Pandas, Tkinter
Databases	MySQL, SQLite
Developer Tools	Git/Github, Google Colab, VS Code, Excel, Anaconda
Academic Coursework	Data Structures, Operating Systems (Windows, Unix/Linux), CN, OOP, DBMS
Certifications	Data Science Workshop (AI MINDENIOUS) Python, NoSQL, DBMS, OOPs, (Simple Learn) Data Structures, MySQL (Great Learning) Accenture Developer Program (Accenture)

WORK EXPERIENCE

PRESTIGE TECH COMPANY **May 2025 – July 2025**

- Worked on the project “Machine Learning, and Data Analytics for Predictive Modeling in Healthcare Systems” under the guidance of Manas Martha and Gained experience in deep learning, data analytics, and predictive modeling using Python, ML frameworks, and healthcare datasets.
- **Edunet Foundation : Artificial Intelligence Data Analysis** **May 2025- June 2025**
- Gained hands-on experience in Python, Pandas, NumPy, and data visualization and Understood basics of Machine Learning, including supervised and unsupervised learning models.
- Developed essential soft skills in teamwork, communication, problem-solving, project management, adaptability, leadership, and a strong work ethic, contributing significantly to my professional growth.

PROJECTS

CHATBOT.AI: Developed a responsive Customer Support Chatbot application that simulates human-like interactions using Python. Focused on smooth UI, intuitive design, and seamless message handling. and implemented advanced search functionality.

Weather Tracker App (HTML, CSS, JS and Unleash API): Built a real-time weather tracking web application using HTML, CSS, and JavaScript, integrating the Unleash API to fetch weather data for multiple locations. Implemented dynamic UI updates, responsive design, and user-friendly features, improving accessibility and usability across devices.

GameHub: Created GameHub, a Python project featuring 6 games (GK Quiz, Tic Tac Toe, Hangman, Anagram Solver, etc.) using modular OOP for scalability, stability, and bug resolution through testing.

EXTRA-CURRICULAR ACTIVITIES

- Active in Summer of Code (SOC) with contributions to open-source projects, demonstrating technical proficiency and innovation in project presentations at Hackathon.
- Interest in seeking Real-World Projects and technology to apply skills and contribute to impactful Projects.
